Listen

like the File Manager, which is accessible through the hPanel. Users can also utilize FTP and SSH for larger files or for uploading backups. [🔗](#)

Here's a more detailed breakdown:

How to Upload Files in Hostinger:

1. **Access the hPanel:** Log in to your Hostinger account and navigate to your website's dashboard, [as explained in a YouTube video](#). [🔗](#)
2. **Find the File Manager:** You can find the File Manager in the website dashboard or by navigating through the sidebar: Files → File Manager, [according to Hostinger's tutorial](#). [🔗](#)
3. **Choose a Website:** Select the specific website where you want to upload the files. [🔗](#)
4. **Navigate to public_html:** This is the directory where your website's files are typically stored. [🔗](#)
5. **Upload the files:** Use the "Upload Files" icon to browse and select files from your computer, [as explained by Hostinger](#). [🔗](#)
6. **Extract (if necessary):** For archived files (e.g., .zip), you'll need to right-click and extract the files to the public_html folder. [🔗](#)

File Manager Functionality:

Large Files:

The File Manager allows for uploading files up to 100 GB, [says Hostinger in its help center](#). [🔗](#)

Multiple Files:

For multiple files or large archives exceeding the 100 GB limit, FTP or SSH is recommended, [according to Hostinger](#). [🔗](#)

Organizing Files:

The File Manager allows you to organize files into folders and subfolders within your website's directory. [🔗](#)

Alternative Methods for Uploading:

FTP:

[Hostinger's support article](#) suggests using an FTP client for uploading multiple files or large archives.

SSH:

SSH is another option for uploading large files, especially for plans that offer it, [says Hostinger in their support article](#). [🔗](#)
